AI/ML Workshop

Netdev 0x14

AI/ML and networking

I. Optimizing AI/ML applications connected to network
    Get sensory data to GPU for inference, learning
II. Apply AI/ML to operations, routing, parameter tuning
    Subject of today's presentation
III. Apply AI/ML to create network protocols and stack implementation
    TCP ex Machina to generate congestion control algorithm

Agenda: AI/ML

- *Machine learning in packet routing process*: Maciej Paczkowski, Aleksandra Jereczek, Patrycja Kochmanska
- TLS handshake performance: Marta Plantykow, Piotr Raczynski, Maciej Machnikowski, Pawel Szymanski
